Job Application for Software Engineer

Dear Mr. Keyne,

About Me

I am a skilled and experienced Blockchain Developer with a passion for building innovative solutions on Layer-1 blockchains. With a solid background in software architecture, development, and team leadership, I am well-equipped to spearhead the creation and maintenance of blockchain projects based on Cosmos SDK & CometBFT (Tendermint). My expertise in Golang and comprehensive knowledge of blockchain technologies make me a valuable asset to any team striving to push the boundaries of decentralized systems.

Why Coreum?

As a Layer-1 Cosmos blockchain, Coreum offers a unique opportunity to work at the forefront of blockchain innovation. The prospect of leading the architecture and development of a new blockchain platform based on Cosmos SDK & CometBFT is particularly appealing. Coreum's commitment to fostering a collaborative environment where team members can contribute to the creation of third-party services and innovative features aligns perfectly with my professional goals. I am excited about the prospect of joining a dynamic team dedicated to advancing the capabilities of blockchain technology.

Why Me?

With over 2 years of expertise in Cosmos SDK & CometBFT (Tendermint), Interchain Academy Certification and more than 3 years of development experience using Golang, I bring a wealth of technical knowledge and hands-on experience to the table. My proven track record includes contributing to production-ready blockchain projects, demonstrating my ability to navigate the complexities of blockchain architecture, design, development, and maintenance. Additionally, my experience in leading development teams and conducting code reviews ensures that I can effectively guide and mentor a compact team of engineers at Coreum. My proficiency in English further facilitates seamless communication and collaboration within the team.

Sincerely,

Ankit Kumar
